### CALIFORNIA EUCALYPTUS!

- TEN-ACRE Eucalyptus Mahegany Plantation (now selling for \$2,000) will produce an average yearly income of \$2,500 permanently. Think of it—\$25,000 every ten years from such a small investment! This is an actual fact, verified by the U. S. Government and State of Cal. Forestry authorities.
- OU couldn't find a better or safer investment, especially for an absentee landlord, as these trees need no attention and sprout from the stumps immediately after cutting. Our Plantations will be worth from \$2,500 to \$3,000 per acre in a few years.

We will sell the land, not stock [on easy payments it desired], cultivate and care for the trees until no further attention is required, pay taxes and assessments for 4 years and give you a Guaranteed title. Will also market your timber if you wish for a small commission. Call and see our exhibit-furniture, not handles, wagon parts, flooring, polished cabinet words, etc., or write for further particulars, and booklet.
